Drew Cummings
Corporate Radiation Safety Officer
Qal-Tek Associates, LLC
3998 Commerce Circle
Idaho Falls, ID 83401

SUBJECT: SUSPENSION OF LICENSE AMENDMENT REQUEST DATED AUGUST 30, 2024,
AND ADMINISTRATIVE CLOSURE OF LICENSING ACTION

Dear Drew Cummings:

The U.S. Nuclear Regulatory Commission (NRC) is suspending the review of your amendment request dated August 30, 2024, since your request is incomplete and lacked significant amounts of information. Therefore, we are unable to approve your August 30, 2024, amendment request and have administratively closed this licensing action. This action is done without prejudice, and you may resubmit your request when you are able to provide a complete application.

Please note that your request to change the scope of NRC license number 11-27610-04 from processing of licensed material for disposal at a low-level waste facility to a decontamination and decommissioning (D&D) service provider necessitates Qal-Tek Associates, LLC, to provide information that is equivalent to submitting a new license application. In addition, your request should clearly specify what must be added and what you want removed from the existing license. Please follow the guidance in Appendix B of NUREG-1556, Volume 18, revision 1. Also, please ensure that you revise information and procedures to exclude any activities and references to the Mayfield facility.

In accordance with Title 10 of the Code of Federal Regulations (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Please feel free to contact Roberto Torres at 817-200-1189 if you have any questions regarding this letter.

Sincerely,

Signed by O'Keefe, Cornelius
