Event 57243 Part 21

Dear Sir or Madam,

I have a question regarding the application of 21.21.a.2 and reporting within 60 days.

The Part 21 Report was opened on 7/25/24. We initially thought our containment and corrective actions were completed on 8/23/24, but discoveries during implementation of the corrective actions led us to request retraction of our Final Report on 9/6/24. An update to the retraction of our Final Report was submitted 9/17/24 in which we estimated completion of our containment actions on Sept 30th but this will now be completed by October 4th. This delay is due to precautionary inventory sampling activities that involves 14-day aging testing. We now plan to have our Final Report submitted the week of October 7th which will include the results of our containment activities, along with third party audit (scheduled 10/1/24) verification of our implemented corrective actions.

Will this email be accepted for our status update or should I submit a formal letter.

Sincerely,

Phillip Sargenski
Quality Assurance Manager
