Subject: Perry Draft EIS Issued

Please be aware that "Generic Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 61, Regarding Perry Nuclear Power Plant, Unit 1, Draft Report (NUREG-1437)" was published by the NRC on August 30, 2024, and can be found in the NRC's public ADAMS system using the following link:

<https://adamswebsearch2.nrc.gov/webSearch2/main.jsp?AccessionNumber=ML24241A256>

The EPA's *Federal Register* notice officially kicking off a 45-day commenting period is expected this Friday, September 6th and we are planning for two virtual public meetings to receive comments on the document: one 10/1 at 1:00 pm ET and one 10/2 at 6:00 pm ET. Details will be posted soon on the NRC's public meeting schedule at: <https://www.nrc.gov/pmns/mtg>.

Please let me know if you have any questions.

Best,

Lance

RE: Section 106 Review: Issuance of Renewed Facility Operating License NPF-58 for Perry Nuclear Power Plant Unit 1 in Perry, Lake County, Ohio

Dear Mr. Rakovan:

This letter is in response to the correspondence received on September 3, 2024, regarding the above-referenced project in Lake County, Ohio. We appreciate the opportunity to comment on this project. The comments of Ohio's State Historic Preservation Office (SHPO) are made in accordance with the provisions of Section 106 of the National Historic Preservation Act of 1966, as amended (54 U.S.C.306108 [36 CFR 800]).

Energy Harbor Nuclear Corp has submitted an application for renewing the operating license for the Perry Nuclear Power Plant Unit 1 (Perry Plant) for an additional 20 years. As part of the license renewal process, the Nuclear Regulatory Commission (NRC) may request consultation in accordance with Section 106. The purpose of your submission is to solicit comments from the Ohio SHPO regarding the effects that license renewal activities may have on historic and cultural resources within the plant's environment. Please see below our *preliminary comments and recommendations* regarding cultural resources and compliance with Section 106. The Ohio SHPO greatly appreciates the opportunity to comment on the undertaking.

- Archaeology: Since the undertaking consists of a license renewal and no ground disturbing activities are planned, the SHPO has no concerns regarding archaeological resources and the undertaking.
- History/Architecture: Since Perry Power Plant was constructed in 1974, the Ohio SHPO continues to recommend that a professional meeting the Secretary of the Interior Professional Qualification Standards in Architectural History evaluate the facility for its potential eligibility for listing in the National Register of Historic Places. Please note that the proposed license renewal would have no effect even if historic properties are present within the APE, however this recommendation would be a planning tool for future undertakings at the plant.

The SHPO looks forward to continued consultation in regard to this undertaking. If you have any questions concerning this review, please contact me at sbiehl@ohiohistory.org. Thank you for your cooperation.
