WASHINGTON, D.C. 20555-0001

October 28, 2024

Shawn Hafen
Site Vice President
Northern States Power
Company – Minnesota
Monticello Nuclear Generating Plant
2807 West County Rd 75
Monticello, MN 55362

**SUBJECT: MONTICELLO NUCLEAR GENERATING PLANT, UNIT 1– SCHEDULE
REVISION FOR THE SUBSEQUENT LICENSE RENEWAL APPLICATION
REVIEW (DOCKET NUMBER: 50-263)**

Dear Shawn Hafen:

By letter dated January 9, 2023, (Agencywide Documents Access and Management System ML23009A353), Northern States Power Company submitted to the U.S. Nuclear Regulatory Commission (NRC) an application for subsequent license renewal of Renewed Facility Operating License No. DPR-22 for Monticello Nuclear Generating Plant, Unit 1 (Monticello). By letter dated February 23, 2023 (ML23047A175), the NRC staff concluded that the application was acceptable for docketing and included the staff's projected review schedule for the Monticello subsequent license renewal application (SLRA) Enclosure 1. The purpose of this letter is to inform you of changes in the schedule for the Monticello SLRA.

For the environmental review, the scheduled due dates for "Issue Final SEIS," and "U.S. Environmental Protection Agency FRN Published – Availability of Final SEIS," milestones will be revised from October 2024 to November 2024. The schedule change is a result of a change to the affected environment causing an additional round of request for additional information and complexities in the tribal consultation.

Enclosure 2 of this letter highlights the staff's revised projected review schedule for the Monticello SLRA. The NRC staff will strive to meet the milestones ahead of the revised schedule whenever feasible.

If you have any questions related to this review schedule, please contact Marieliz Johnson, Safety Project Manager via email at Marieliz.johnson@nrc.gov.

Sincerely,

Signed by Sampson, Michele
on 10/28/24

Michele Sampson, Director
Division of New and Renewed Licenses
Office of Nuclear Reactor Regulation

Docket No. 50-263
