**Freedom of Information Act (FOIA) and Privacy Act (PA) Requests and Appeals Received
During the Period of November 11 – November 15, as submitted by requester**

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2025-000145	Crawford, Kevan		A digital scan in JPEG format of the Reactor Operator License # OP-4966 issued to [listed individual] in 1979 by the NRC for the non-power TRIGA nuclear reactor at the University of Utah. DO NOT CONFUSE this Reactor Operator License with the Senior Operator License (digital scan provided with this request for clarity and personal identification support).	11/12/2024
FOIA-2025-000146	Williams, Sylvia	-	This is a FOIA information request. Your link to that site is broken. Please send any proof that you bought the land the Nuclear Regulatory Commission is on from the Powhatan. (If you question your location the whole of DC can clearly be ascertained to be on Powhatan by overlaying a John Smith Map on a present-day Google Map.) You are a little northwest which would perhaps place you outside the boundaries. See if you have a receipt, bill of sale, clear title, deed, etc.	11/12/2024
FOIA-2025-000147	Ravnitzky, Michael	-	Requester is seeking: SECY-92-042 SECY-92-064 SECY-92-208 SECY-92-379 SECY-92-382 SECY-93-082 SECY-93-273 SECY-94-030 SECY-94-089 SECY-94-303 SECY-94-304	11/12/2024

Staff Presentation on Small Modular Reactors and Microreactors at the Department of Nuclear Engineering at Texas A&M University

On November 12, 2024, Division of Advanced Reactors and Non-power Production and Utilization Facilities (DANU) staff gave a presentation on small modular reactors and microreactors to a class of advanced undergraduates and graduate students in the Department of Nuclear Engineering at Texas A&M University.

Meeting with Officials from the U.S. Navy to Discuss the Navy's Planned Deployment of Advanced Reactors to Power Domestic Military Bases and the Surrounding Communities

On November 13, 2024, DANU management met with officials from the U.S. Navy to discuss the Navy's planned deployment of advanced reactors to power domestic military bases and the surrounding communities. The meeting included a discussion of the various licensing pathways, pre-application engagement, recent U.S. Nuclear Regulatory Commission (NRC) experiences with conducting non-light water reactor reviews, and ongoing and planned enhancements to facilitate timely advanced reactor licensing and deployment, including provisions outlined in the ADVANCE Act. The Navy is currently in the process of selecting vendor(s) for pilot projects that will be licensed by the NRC.

Staff Attended the PRA Counterpart Meeting that was Sponsored and Held by NextEra Energy, and Discussed Mutual Topics of Interest Related to the Application of Probabilistic Risk Assessment (PRA) Tools and Methods

On November 7-8, 2024, Office of Nuclear Reactor Regulation staff, along with the regional senior reactor analysts, attended the PRA Counterpart Meeting that was sponsored and held by NextEra Energy, and discussed mutual topics of interest related to the application of probabilistic risk assessment (PRA) tools and methods. Specifically, the topics that were discussed included use of PRA in current oversight and licensing activities, the reactor oversight process and significance determination process, recent inspection findings, recent trends in oversight and licensing, and industry perspectives. The counterpart meeting was very well-received and allowed for a venue to share insights regarding PRA issues across the agency, industry, and NEI.

Organizational Development (OD) Services for the U. S. Nuclear Regulatory Commission

On November 8, 2024, contract number 31310025C0003 was awarded to Human Capital Resources & Concepts Inc. in Lakeland, FL. The purpose of this contract is to provide Organizational Development (OD) services that supplement the U.S. Nuclear Regulatory Commission's resources through executive coaching and OD interventions. The period of performance is from November 18, 2024, through November 17, 2025, with four option periods. The total potential value of the contract can be up to \$4,175,572.04.

NOTE: The Office of Administration Enclosure in SECY-24-0084: Weekly Information Report Week Ending October 4, 2024 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML24284A270) has been updated in ADAMS.
