Subject: [External_Sender] Keep Diablo Canyon

If Diablo Canyon closes there will be a considerable increase in CO2 from the fossil fuel plants that will have to be needed to keep the grid stable.

Having been a tour guide at DCPD for 23 years I am able to confirm the plants incredible safety record.

Those who fear monger DCPD have no credible knowledge, training or experience of the workings of a nuclear power plant or Diablo Canyon.

There's no proof of any of the fear mongers accusations.

The NRC has a great record of safety oversight.
