**Freedom of Information Act (FOIA) and Privacy Act (PA) Requests and Appeals Received
During the Period of December 2 – December 6, as submitted by requester.**

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2025-000255	Vaughn Jr., Bobby	A Call to Actions	I request a link, and/or access to the NRC's environmental monitoring network pertaining to the Honeywell Metropolis-Works Plant, located in Metropolis, Illinois. The NRC provides various environmental monitoring reports and information to the public by utilizing environmental monitoring network(s) for air, water, soil, sediment, etc. As the environmental reports are public, I do not wish to access them at this time. The monitoring network to which I request access may be geo-spatial in nature/ a satellite and interactive mapping system. I request a link and/or access to this NRC-used monitoring network, from which I can search, query, and download datasets pertaining to the Honeywell plant in Metropolis, Illinois.	12/02/2024
FOIA-2025-000256	Criscione, Lawrence	-	Under the Freedom of Information Act and 10 CFR 9.23, I request the official, unredacted, versions of the following documents listed on pp. 1 & 2 of the attached: 1. 2024-Aug-27 motion from Duke Energy 2. 2024-Aug-29 motion from Beyond Nuclear and Sierra Club 3. 2024-Sep-10 motion from NRC staff 4. 2024-Sep-24 motion from NRC staff 5. 2024-Sep-30 response petitioners' response 6. 2024-Oct-7 reply from NRC and Duke Energy 7. 2024-Nov-21 motion from NRC staff 8. 2024-Nov-21 filing from NRC staff 9. 2024-Jun-24 transcript 10. "Petitioners' four filings" referred to in the 10th line on page 2 of the attached document	12/03/2024
FOIA-2025-000257	Pacey, Lesley	Government Accountability Project	The Government Accountability Project also requests the following records as well as a fee waiver due to the fact that our nonprofit organization is an educational resource to the media. Under the Freedom of Information Act and 10 CFR 9.23, I request the official, unredacted, versions of the following documents listed on pp. 1 & 2 of the attached: 1. 2024-Aug-27 motion from Duke Energy 2. 2024-Aug-29 motion from Beyond Nuclear and Sierra Club 3. 2024-Sep-10 motion from NRC staff 4. 2024-	12/03/2024

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2025-000257 (continued)			Sep-24 motion from NRC staff 5. 2024-Sep-30 response petitioners' response 6. 2024-Oct-7 reply from NRC and Duke Energy 7. 2024-Nov-21 motion from NRC staff 8. 2024-Nov-21 filing from NRC staff 9. 2024-Jun-24 transcript 10. "Petitioners' four filings" referred to in the 10th line on page 2 of the attached document	
FOIA-2025-000258	Lagura, Jordan	Envirosite Corporation	I am seeking the updated electronic list and details for sites in possession/use of radioactive materials regulated by NRC. I am seeking all statuses. Previously I received these fields: License Number, Date OrgLic, License Date, Expiration Date, Licensee, Licensee Line 2, License Contact Street 1, License Contact Street 2, License Contact Street 3, License Contact, City, State, License Contact Zip, Contact Full Name, Contact Phone, Status, Agency Code.	12/04/2024
FOIA-2025-000259	Ritzman, Robin	Curtiss-Wright	10 CFR 21.21(c) states: For persons licensed to operate a nuclear power plant under part 50 or part 52 of this chapter, evaluation of potential defects and appropriate reporting of defects under §§ 50.72, 50.73, or § 73.71 of this chapter, satisfies each person's evaluation, notification, and reporting obligation to report defects under this part, and the responsibility of individual directors and responsible officers of these licensees to report defects under Section 206 of the Energy Reorganization Act of 1974. Historically, many individuals at nuclear power plants have understood this to mean that if a report was made under 10 CFR 50.73, that the reporting guidance delineated in 10 CFR 21.21 was also met. This understanding has recently been challenged with the issuance of two Unresolved Items where the NRC inspector has questioned whether the information provided in the Licensee Event Report (LER) submitted in accordance with 10 CFR 50.73 provided sufficient information to meet the requirements of 10 CFR 21.21. During subsequent discussion between NRC representatives and industry representatives, industry representatives became aware of guidance that the Office of General Counsel has provided to NRC staff regarding crediting an LER for meeting the requirements of 10 CFR 21.21. In order to assist the nuclear power industry to comply with NRC expectations, we are requesting this guidance.	12/05/2024

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2025-000260	Blind, Alan	-	Dear FOIA Officer, I am submitting this request under the Freedom of Information Act, 5 U.S.C. § 552, for access to records related to license termination letters issued under the provisions of 10 CFR § 50.82 Termination of License. Specifically, I am requesting a list of all instances where the NRC has issued license termination letters for power reactors, including the following details: 1. The name of the licensee. 2. The facility name. 3. The date the license termination letter was issued.	12/05/2024
FOIA-2025-000261	McDermott, Sean	-	request that a copy of some of your digital records be provided to me: - Communications from/to the NRC related to uranium mining in the Los Padres National Forest - Communications between the NRC and the EFI Foundation (or its representatives) regarding new uranium mining permits in the State of California The search for records can be restricted to the years 2023 and 2024. Existing digital records should include emails (plus attachments) or other digital records at the NRC. Scanning of documents only available in paper format is unnecessary for this request. I am willing to restrict the search further if excessive records are output from this search. (Date Range for Record Search: From 1/1/2023 To 12/6/2024)	12/06/2024

Staff Completed Phase A, Advanced Safety Evaluation Report for the NuScale US460 Standards Design Approval Application

On Friday November 29, 2024, the staff completed Phase A, Advanced Safety Evaluation Report (ASER) for the NuScale US460 Standard Design Approval Application (SDAA). The ASER is substantively complete with a limited number of items remaining open. Over the next few weeks, the staff and NuScale will focus on closing the remaining open items to support the completion of a management-approved version of this ASER with no open items by February 2025, in accordance with Phase B of the SDAA review schedule. The review is on track for issuance of the SDAA's Final Safety Evaluation Report in July 2025.
