Oak Harbor, OH 43449-9760

SUBJECT: RESPONSE TO REQUEST TO RESCHEDULE DAVIS-BESSE
NUCLEAR POWER STATION TRIENNIAL U.S. NUCLEAR
REGULATORY COMMISSION-EVALUATED FORCE-ON-FORCE
INSPECTION

Dear Jesse Joyal:

The U.S. Nuclear Regulatory Commission (NRC) staff received your email titled "Davis-Besse 2026 Triennial FOF" (Agencywide Documents Access and Management System accession number [ML24351A171](#)) and has conducted a review of the information contained within. In addition to the email, phone conversations with you stated that Davis-Besse is requesting to reschedule the NRC-evaluated force-on-force (FOF) inspection because of a security project upgrade at the station.

The staff finds Davis-Besse's request to reschedule the NRC-evaluated FOF inspection reasonable. As such, the NRC-evaluated FOF inspection will now be conducted during the weeks of May 18, 2026 and June 8, 2026. Region III security staff will work with the site on adjusting their regional baseline security inspections that are scheduled during this timeframe.

Please feel free to contact me at (301) 287-3666 with any questions you have regarding this letter.

Sincerely,

 Signed by Clark, Jefferson
on 12/19/24

Jefferson Clark, Chief
Security Performance Evaluation Branch
Division of Security Operations
Office of Nuclear Security and Incident Response
