WY Radiation Materials License Amendment Request.pdf

Monica,

Liberty Oilfield Services is a Region I licensee, so I am forwarding this amendment request from them to you for your action.

The licensee made 3 errors, so the amendment request went from Duncan White to us because they had our address on it, but addressed it to Wyoming Dept of Environmental Quality. I looked at it and searched WBL using the license number provided, and it was an old RIV license that was retired in 2016. So they (1) sent it to the wrong region; (2) addressed it to WDEQ; and (3) used the wrong license number. We believe the rest of the information is correct.

We had to call them to get the story. The old license was for a location in Wyoming that got closed. They later applied to Region I for a license for a location in WV. Now they want to open a new location in WY through an amendment to the existing NRC license.

Michael Tuomi is the correct RSO for the proposed new location, and the correct/current NRC license for Liberty Oilfield Services, LLC with Region I is License No. 47-35650-01, Docket No. 3039282. The licensee is requesting to add a new Wyoming location to their active NRC license. Also, the licensee is changing their name and the RSO confirmed that it is not a change of control.

The phone number we eventually used to get ahold of Michael Tuomi is 720-556-8745. The application has another number that he wasn't answering.

Good luck – they got off to a rocky start.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form
