While going through the files I noticed that the track changes did not appear in the pdf copy when I converted from Word to PDF.

Please see the attached word file with track changes.

Good Day,

As discussed, see attached draft Environmental & SAMA RCI/RAI.

The Environmental RCI/RAIs are in track changes, so you can clearly see the revised language, where applicable.

Please note this is a draft some items may change in the final.

Thank you,
