RE: Termination of License 45-30846-01

To Whom It May Concern:

Please note that J Core Drilling, Inc. wishes to terminate the Radioactive Materials License Number 45-30846-01 effective December 31, 2024.

Our NRC License expired on 05/31/2024; it was renewed but we didn't receive the renewed license.

The CRCPD through their SCATR program is assisting us with the disposal of our gamma ray sources in the first quarter of 2025.

When we are able to get rid of the sources, our Commonwealth of Virginia Department of Health Radioactive Materials License Number 059-354-1 will be terminated.

The last time we used our gamma ray sources (Cobalt C-60) was on 07/12/2024. We will no longer use it until they are disposed.

We will ensure that we are following all regulations when it comes to the safety and security of the radiological material until we have transferred them to CRCPD.

Sincerely,

Jesus E Cabrera

President

J Core Drilling, Inc.
