Brian A. White  
Radiation Safety Officer  
Atlas Technical Consultants, LLC  
1206 Business Loop 70 W., Suite E  
Columbia, Missouri 65202

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 24-35467-01

By letter dated September 24, 2024, Greg Fiedorowicz, Regional Health and Safety Coordinator informed the U.S. Nuclear Regulatory Commission (NRC) that you wished to terminate your NRC radioactive materials license. The NRC Form 314 dated September 24, 2024, stated that all radioactive material is being transferred to NRC license 05-35290-01 to consolidate Atlas's licenses.

The staff has reviewed the statements made in Form 314 dated September 24, 2024, and NRC inspection reports. Information in the docket file shows that your company's NRC license 05-35290-01 authorizes the same types of material and devices as in the NRC license being terminated. Based on the statements made and a review of your historical file, the staff concluded that all NRC licensable radioactive material will continue to be used in federal jurisdiction under the terms of the active NRC license.

Additionally, I have reviewed the submitted documentation of the transfer/disposal of licensed materials and the closeout survey report. Based on my review, I have concluded that all licensable radioactive material has been removed from 1206 Business Loop 70 W., Suite E, Columbia, Missouri 65202 and residual radioactive material attributable to licensed activities does not exceed current NRC criteria. This site is releasable for unrestricted use.

Please find enclosed Amendment No. 5 to License No. 34-35467-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1472 if you have questions or require clarification on any of the information stated above.

Sincerely,

Tony J. Gonzalez, Health Physicist  
Materials Licensing Branch
