

Training & Experience “Alternate Pathway” for an Authorized Medical Physicist (AMP)

Regulation	10 CFR 35.51
Education	Holds a master's or doctor's degree in physics, medical physics, other physical science, engineering, or applied mathematics from an accredited college or university per 35.51(b)(1) .
Training	One year of full-time training in medical physics in topics listed in 35.51(b)(1) . Note: This training must be conducted in clinical radiation facilities that provide high-energy, external beam therapy (photons and electrons with energies greater than or equal to 1 million electron volts) and brachytherapy services.
Supervised Work Experience	One year of full-time, supervised, work experience in topics listed in 35.51(b)(1) . Note: This work experience must be conducted in clinical radiation facilities that provide high-energy, external beam therapy (photons and electrons with energies greater than or equal to 1 million electron volts) and brachytherapy services.
Additional Training	Hands-on device operation, safety procedures, clinical use, and the operation of a treatment planning system for the types of use for which authorization is sought 35.51(c) . Note: This training requirement may be satisfied by satisfactorily completing either a training program provided by the vendor or by training supervised by an authorized medical physicist authorized for the type(s) of use for which the individual is seeking authorization.
Written Attestation	Required under alternate pathway per 35.51(b)(2)
