LTG Telita Crosland, Director  
Defense Health Agency  
7700 Arlington Boulevard  
Suite # 5101  
Falls Church, VA 22042-5101

**SUBJECT: DEFENSE HEALTH AGENCY, REQUEST FOR ADDITIONAL INFORMATION,  
MAIL CONTROL NO. 642152**

Dear LTG Crosland:

This is in reference to the revision of the Financial Assurance (FA) for your license required as a result of the changes made with the issuance of Amendment 12. Further, it references the request for additional information dated August 1, 2024 (ML24214A196), where the revision to your FA was requested. We held a phone conversation on January 16, 2025, to discuss the matter. To confirm that which was communicated to you on January 16, 2025, the following needs to be done to update your FA:

1. You are required to submit a decommissioning funding plan (DFP) based on the possession limits of your permit for the Aberdeen Public Health Service added in Amendment 10. As a result, you are not permitted to use the certification amounts in 10 CFR 30.35 for the addition of the USAMRIID facility. Your DFP must be updated to include the USAMRIID facility.
2. Once you have an approved DFP you will need to revise your current Statement of Intent to address the additional amount to cover the USAMRIID facility.
3. You will also need to revise your Certification of Financial Assurance (CFA) to list all the facilities and materials covered by the DFP. Please reference NUREG 1757 for the required format and content for the CFA.

Please send your response to [Jason.VonEhr@nrc.gov](mailto:Jason.VonEhr@nrc.gov) as I will no longer be working at the USNRC effective January 31, 2025.

An electronic version of the NRC's regulations is available on the NRC Web Site at: [www.nrc.gov](http://www.nrc.gov). Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions

that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact Jason at (610) 337-5256 or via electronic mail at [Jason.VonEhr@nrc.gov](mailto:Jason.VonEhr@nrc.gov).

Thank you for your cooperation.

Sincerely,

Robin L. Elliott, Senior Health Physicist  
Medical and Licensing Assistance Branch  
Division of Radiological Safety and Security
