Fort Calhoun Station
Independent Spent Fuel Storage Installation
NRC Docket No. 72-054

Subject: Independent Spent Fuel Storage Installation Annual Radioactive Effluent Release Report

Pursuant to 10 CFR 72.44(d)(3), Omaha Public Power District submits this letter to address the Annual Radioactive Effluent Release Report for the Fort Calhoun Station Independent Spent Fuel Storage Installation (ISFSI). There have been no radioactive liquid or gaseous effluents from the FCS ISFSI for the period January 1, 2024 through December 31, 2024.

NUHOMS casks are stored within the onsite ISFSI in accordance with 10 CFR 72.210. The NUHOMS casks are designed and sealed so as not to create any radioactive materials or have any radioactive material effluents. As such, there have been no radioactive liquid or gaseous effluents released from the NUHOMS casks during the same period.

If you should have any questions regarding this report, please contact Benjamin P Pearson at 531-226-7249. There are no regulatory commitments contained in this letter.

Respectfully,

Benjamin P. Pearson
Regulatory Assurance & Emergency Planning Manager
