Radiation Safety Room 159
Indianapolis, IN 46202

SUBJECT: CORRECTED COPY TO AMENDMENT NO. 122 TO RADIOACTIVE MATERIALS
LICENSE FOR INDIANA UNIVERSITY-IUPUI/IU MEDICAL CENTER CAMPUS,
U.S. NRC MATERIALS LICENSE NO. 13-02752-03

Dear Mr. Harvey:

Enclosed is a corrected copy to Amendment No. 122 to your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 13-02752-03, following receipt of your e-mail dated January 30, 2025, identifying an apparent error appearing in Item 9, Subitems Nos. T through V, of your license.

Following a review, Item 9, Subitems T through V, are corrected to refer to the authorized use described in the preceding Subitem No. 9.S.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. NRC Region III office at (630) 829-9887 so that appropriate corrections and answers may be provided.

An environmental assessment for this action is not required because this action is categorically excluded under [Title 10 of the Code of Federal Regulations \(CFR\) Section 51.22\(c\)](#).

You will be periodically inspected by the U.S. NRC. Failure to conduct your program in accordance with U.S. NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with U.S. NRC will result in enforcement action against you. This could include issuance of a notice of violation; or imposition of a civil penalty; or an Order suspending, modifying, or revoking your license as specified in the U.S. NRC Enforcement Policy. Since serious consequences to employees and the public can result from failure to comply with U.S. NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance that U.S. NRC expects of its licensees.

The U.S. NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on U.S. NRC's safety culture website at <https://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. I encourage you to review this material and adapt it to your particular needs in order to develop

The enclosed document contains sensitive security-related information.

and maintain a positive safety culture as you engage in U.S. NRC-regulated activities.

[U.S. NRC's Regulatory Issue Summary \(RIS\) RIS 2005-31](#) provides criteria to identify security related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through NRC's ADAMS, the NRC's electronic document system. Pursuant to U.S. NRC's RIS 2005-31 and in accordance with 10 CFR 2.390 of the U.S. NRC's "Rules of Practice and Procedure," the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the U.S. NRC's Generic Communications webpage under "Regulatory Issue Summaries" at <https://www.nrc.gov/reading-rm/doc-collections/gen-comm/>, and the link for frequently asked questions regarding protection of security-related sensitive information may be located at <https://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the U.S. NRC Public Document Room or from the U.S. NRC's ADAMS, accessible from the U.S. NRC website at <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Jason M. Kelly, MPH, CPH
Health Physicist
