Subject: Clarification of Request for Additional Information Letter

Discussion: Mr. Marro sent an email dated February 5, 2025, and a voice-mail requesting clarification of items in our Request for Additional Information (RAI) dated February 3, 2025. I returned the call on February 6, 2025, and spoke with Mr. Marro and Mr. Scott about the RAI. Item 2.a.: The licensee does not possess and does not intend to possess Co-60 sealed sources. This authorization is to be removed from the license. Item 2.b.: The licensee possesses one Eckert and Ziegler GF Series Cs-137 sealed source. The sealed source strength does not exceed 2.4 millicuries. The licensee was informed that North American Scientific no longer existed as a source for licensed material and would be removed. The licensee indicated that they may add another licensed vendor of sources and would supply the required information if they did so. Item 2.c.: Mr. Marro confirmed that the authorized use was lifted from their Virginia license. The licensee does not do research under the NRC license. References to research and development should be removed from License Condition 9.B. Item 4: Mr. Marro and Mr. Scott confirmed that all leak test analysis is performed under the Virginia license. All leak test analysis would be performed under the Virginia license or by a licensed vendor. I thanked Mr. Marro and Mr. Scott for their time and stated that the licensing action would proceed once we received their reply in writing.
