U.S. Nuclear Regulatory Commission (NRC) Staff Held a Hybrid Public Workshop to Discuss the Scope and Prioritization of 36 Microreactor Licensing and Deployment Topics in the Staff's Draft Integrated Microreactor Activities Plan

On February 20, 2025, the U.S. Nuclear Regulatory Commission (NRC) staff held a hybrid public workshop to discuss the scope and prioritization of 36 microreactor licensing and deployment topics in the staff's draft Integrated Microreactor Activities Plan (Agencywide Documents Access and Management System (ADAMS) Accession No. [ML25036A199](#)). Approximately 200 individuals representing a diverse set of technology developers, prospective applicants, industry groups, and other stakeholders attended the workshop. Participants provided positive feedback and support for the staff's approach to addressing microreactor licensing and deployment topics. Participants also provided additional topics for consideration, feedback on prioritization and timing of several activities, related external initiatives, and recommendations for future targeted workshops.

Allegations Resolutions Investigations and Enforcement System (ARIES) Operations, Maintenance, and Enhancements

On February 18, 2025, contract number 31310025C0006 was awarded to Union5 LLC in Salt Lake City, UT. The purpose of this contract is to obtain all necessary tasks to maintain the Allegations Resolutions Investigations and Enforcement System (ARIES) solution to ensure its operability for its users, as well as to provide support for iterative functional enhancements, reports development and/or modernizing the ARIES solution as needed. The period of performance is from March 1, 2025, through September 30, 2025, with two option periods. The total potential value of the contract can be up to \$1,696,289.64.

If you have any questions, please contact Jill Daly, Jill.Daly@nrc.gov.
