

## Response to NuScale Topical Report Audit Question

---

**Question Number:** A-FSR.LTR-44

**Receipt Date:** 10/14/2024

---

**Question:**

Section 6.5.5: Burnup and Enrichment Limits for Zone 1. [

What is unique about the NuScale FSR design, NuScale fuel design, and/or NuScale Rx operation that leads to this result?

---

**Response:**

NuScale's response to A-FSR.LTR-37 addresses this question.

No changes to the LTR are necessary.
