Good morning gentlemen. This is a follow up to my email of February 20, requesting additional information for your license termination. Can you please send a brief response letting me know that you received my request for additional information? As always, if you have any questions, please let me know.

Thank you.

Scott Wilson

George Sherman, Safety Engineer/RSO
Alliant Techsystems, LLC.
Northrup Grumman Corporation
210 State Route 956
Rocket Center, WV 26726

Mr. Sherman:

This is regarding your letter dated December 18, 2024, requesting termination of NRC license SUB-1440. To complete our review and terminate the license, we need the following additional information:

1. Based on our review of correspondence with the licensee since the license was issued, we identified multiple buildings where DU was used or stored. Your letter included a survey of Building 2031 only. Please demonstrate that the following buildings were surveyed and verify that the site meets the screening criteria for unrestricted use.:
 - a. Building 368 - M829E3 Sabot & Projectile Assembly Area
 - b. Building 532 - used for storage of completed assemblies
 - c. Building 167 – used temporarily while Building 368 was being prepared for use
2. Please verify that, based on your knowledge of the site and a review of historical records, no loose contamination was identified, and no events occurred which would cause contamination of the site.

Your response should be provided with your signature and may be sent via email in response to this email.

Thank you for your cooperation.

Scott Wilson
