Good morning Randy Stevens,

We have received a request to renew license 45-23031-01 but as it stands, we are missing information needed to complete your request.

You have submitted the NRC form 313 application with some additional information for items 5 through 11 of the application. However, there were a few commitments and procedures that were missing to complete the review and approval process.

It is acceptable to fill out and submit the License renewal checklist for your program type, which can be found in Appendix B of NUREG-1556, Volume 7, Revision 1. This appendix will also let you know what procedures need to be submitted as well, and is linked below...

Please send the requested information as a PDF to this email to complete your request. If you have any questions or concerns, please feel free to reach out.

Thank you,
