Dafna Silberfeld, Deputy Director
Division Material Safety, State, Tribal,
and Rulemaking Programs
Office of Nuclear Material Safety
And Safeguards
U.S. Nuclear Regulatory Commission
T8-E18
Washington, D.C. 20555-0001

Dear Ms. Silberfeld

Enclosed is a copy of the final revisions to the Arkansas State Board of Health's Rules for Control of Sources of Ionizing Radiation effective September 15, 2024.

In a letter dated February 24, 2025, we submitted these final rules for your approval that corresponded to RATS 2018 – 1 thru 2022-2. After the earlier submission, we are now addressing the NRC RATS 2023-1. We have determined that our final revisions also address RATS 2023-1.

<u>RATS ID</u>	<u>Title</u>	<u>State Section</u>
• 2023-1	Miscellaneous Corrections-21-CFR	RH-405.1.1.B.i
• 2023-1	Spelling Correction-Meteorology	RH-407.d.4.A

We believe that adoption of our above revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200 for RATS 2023-1.

If you have any questions, please feel free to contact me at 501-661-2107 or Tracy Land of my staff at 501-661-2586 or ADH.RAM@arkansas.gov or Bernard.bevill@arkansas.gov

Sincerely,

Bernard Bevill, Section Chief
Radiation Control Section
Arkansas Department of Health
