

Changes to <https://www.nrc.gov/waste/spent-fuel-storage/resource-estimates.html>

The only changes are the numbers in the red and green cells and please add the notes at the bottom of the table

Category	Licensing Action	NRC Direct Staff Hours			Contractor Cost		
		Low	High	Average	Low	High	Average
Part 72	Certificate of Compliance	30	2,880	710	0\$	0\$	0\$
Part 72	Certificate of Compliance - New	2,310	2,310	2,310	0\$	0\$	0\$
Part 72	Amendments – simple	30	430	130	0\$	0\$	0\$
Part 72	Amendments – complex	450	2,880	1,410	0\$	0\$	0\$
Part 72	Specific ISFSI – New	100	21,220	12,510	0\$	0\$	0\$
Part 72	Specific ISFSI – Amendment	30	1,330	390	0\$	0\$	0\$
Part 72	Renewal CoC	560	850	690	0\$	0\$	0\$
Part 72	Renewal ISFSI	260	1,340	760	0\$	0\$	0\$
Part 71	New Spent fuel/Type B waste Certificate of Compliance	1,110	2,120	1,520	0\$	0\$	0\$
Part 71	Spent fuel/Type B waste Amendments – simple	4	320	110	0\$	0\$	0\$
Part 71	spent fuel/Type B waste Amendments – complex	260	1,680	830	0\$	0\$	0\$
Part 71	New Byproduct material Certificate of Compliance	410	2,420	1,070	0\$	0\$	0\$
Part 71	Byproduct material Amendments – simple	5	280	40	0\$	0\$	0\$
Part 71	Byproduct material Amendments – complex	230	850	630	0\$	0\$	0\$
Part 71	New Unirradiated fissile package Certificate of Compliance	870	1,300	1,070	0\$	0\$	0\$
Part 71	Unirradiated fissile packages Amendments – simple	10	150	50	0\$	0\$	0\$
Part 71	Unirradiated fissile packages Amendments – complex	220	1,300	550	0\$	0\$	0\$
Part 71	Renewals	2	12	5	0\$	0\$	0\$
Inspection	Vendor and Fabricator	50	310	145	0\$	0\$	0\$

Notes

- Estimates are comprised of actual data from 350 storage and transportation cases over 7 years (2018 - 2025).
- Some changes are a result of better infrastructure available at the time of this update, providing more refined data.
- Estimates do not include any potential efficiencies which might stem from programs such as M-LEAP and other advance act initiatives.
