TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 1245, Appendix A, "Basic Level Training and Qualification Journal."

- Added references and tasks to ISAs-20, and 26 and OJT 6 in response to recommendations made in an October 18, 2024, safety culture working group study conducted by DRO and RES. Reference ADAMS ML24277A260.
- Removed the requirement to complete the two FEMA ICS courses in ISA-6 and replaced those courses with an NRC developed course- "Incident Response Awareness Training."
- Corrected incorrect fitness for duty time in ISA-4 that was noted in feedback form 1245A-2546. Removed references to CIPIMS in the document which is no longer in use.
- Removed the requirement in ISA-18 to meet with the FOIA coordinator based upon a request from NSIR since it was determined the meeting with the FOIA coordinator did not add substantive additional training value.
- Adjusted a task in OJT-1 that will require trainees to demonstrate their proficiency with the ADAMs software program during the inspection preparation process.
- Excluded RTR inspector/examiner trainees from having to complete ISA-10, since PIs are not used in the RTR inspection/operator licensing programs.
- Required RTR inspector/examiner trainees to complete ISA-27, since generic communications are applicable to the RTR inspection and examiner programs.

IMC 1245 Appendix B, "General Proficiency–Level Training and Qualification Journal."

- Added additional reference training material course to ISA-3 in response to Feedback Form (FF) 1245B-2525.
- Rewrote ISA-4 in response to an October 18, 2024, safety culture working group study conducted by DRO and RES. Reference ML24277A260.
