Hi Luis,

Please see my response in Red.

1. You guys did only a name change not an owner change for the hospital ? **It was only a name change**
2. Is Donald Conn M.D. still works there? **Yes, Dr. Conn is still the RSO**
3. Is the new lock like the old one that had buttons on the side to unlock the door? **No, we got it replaced with a different lock so that is not an issue moving forward. I included a picture for reference if needed.**

Please let me know if you need anything else.  
Thank you,
