Subject: [Non-DoD Source] Re: FW: DoD/NRC MOU Yearly Inventory Submission

CDR Matt,

Thank you for bringing this to my attention. I will be removing China Lake and Naval Air Station San Diego from the FY 25 DoD Annual Inventory list.

v/r,

Gianni Nelson | Nuclear Engineer

Subject: [External_Sender] FW: DoD/NRC MOU Yearly Inventory Submission

Mr. Nelson,

Looking at our reporting sites in the email you sent on 6 March we believe that based on previous communications (see email from Mr. Grossman on May 7, 2024) that China Lake and Naval Air Station San Diego should be removed.

V/R

Subject: [Non-DoD Source] DoD/NRC MOU Yearly Inventory Submission

Brian,

I am writing to respond to your December 17, 2024 email providing the annual inventory of DoD sites to NRC per the Memorandum of Understanding (MOU). NRC staff has reviewed the list and prioritized activities for FY 2025 and plans to stay-informed or monitor, per the MOU, the following sites:

Stay-Informed	Monitoring
Navy	
Alameda Naval Air Station (CA)	Naval Air Weapons Station China Lake (CA)
Brunswick Naval Air Station (ME)	Long Beach Naval Station (CA)
Marine Corps Base Camp LeJeune (NC)	Mare Island Naval Shipyard (CA)
Hunters Point Shipyard (CA)	North Island Naval Air Station (CA)
Naval Weapons Station Yorktown (VA)	Naval Station San Diego (CA)
Naval Outlying Landing Field Imperial Beach (CA)	Naval Station Treasure Island (CA)
Naval Surface Warfare Center Crane Division (IN)	-
Army	
Sharpe Army Depot (CA)	Dugway Proving Grounds (UT)

Air Force	
McClellan Air Force Base (CA)	Kelly (Lackland) Air Force Base (TX)
Elmendorf Air Force Base (AK)	Hill Air Force Base (UT)

The purpose of the MOU is to minimize dual regulation and duplicative regulatory requirements while ensuring consideration of necessary standards for health, safety, and the environment. The MOU applies to response actions conducted by DoD under CERCLA/DERP to address a confirmed release of radioactive material that is or may be subject to regulation under the Atomic Energy Act (AEA).

If you have any questions, don't hesitate to contact me.

v/r,

Gianni Nelson | Nuclear Engineer
