Hey Jan,

Emil is approved for both devices. I am no longer the RSO at MGUH. Auroba and I are submitting the amendment letter next week to remove me from the license

This Message Is From an External Sender

This message came from outside your organization. Thank you, Matt

[Report Suspicious](#)

and Cara! Just to confirm, is Dr. Emil Cohen authorized for both SIR-Spheres and TheraSpheres?

Matt, I just had another quick question. Your away message states that you are no longer the Director of Radiation Safety at MGUH. Are you still the RSO? I know we recently got an amendment request from Children's National Hospital naming you as the RSO. Are you overseeing both programs, or will you be transitioning to just one? If the latter, do you have a replacement lined up?

Thank you in advance for your help! I hope you have a great weekend!

Jan

He is a current AU for Y90.

Cara could you provide a copy of the internal license in support?

Matt

Subject: [EXTERNAL] Nuclear Regulatory Commission - AU Status Verification

Good morning,

Hi Matthew, my name is Brian Nepper, and I am a Health Physicist with the Nuclear Regulatory Commission. We are currently working on an amendment for a different licensee and would like your confirmation that Dr. Emil Cohen is authorized for 35.1000 Y-90 Sir spheres at MedStar Georgetown Medical Center, license # 08-30577-01.
