**Freedom of Information Act (FOIA) and Privacy Act (PA) Requests and Appeals Received
During the Period of April 21 – April 25, as submitted by requester.**

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2025-000478	Aamot, Colin	Personal Capacity as a Journalist	Dear FOIA Officer, Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, and the implementing FOIA regulations of the agency, I respectfully request the following: From the timeframe of January 20, 2021 to January 19, 2025, all of the following records from EUGENE DACUS - DIRECTOR, OFFICE OF CONGRESSIONAL AFFAIRS: 1. All emails sent to or from the custodian to or from the email domains: @eop.gov OR @who.eop.gov OR @ovp.eop.gov OR @nsc.eop.gov OR @omb.eop.gov OR @ptt.gov. 2. All emails sent to or from the custodian containing the text 'subpoena' OR 'impeachment'. Search Instructions: Please conduct a thorough search of all email accounts assigned to the custodian. For any potentially responsive documents please include all file attachments regardless of type and the entire email chain for completeness. Please comply fully with 5 U.S.C. § 552(b). I am amicable to a rolling production as records are available. I request all responsive documents be delivered electronically, via email. To further narrow down the scope of the request, the requester does not seek correspondence that merely forwards press clippings, such as news accounts or opinion pieces, newsletters, and published or docketed materials, if that correspondence has no comment or no substantive comment added by any party in the thread.	04/21/2025
FOIA-2025-000479	Quigley, Barry	Nubar LLC	This is a FOIA request. I request a copy of an email and its attachment to Laura Dudes, Acting NRR Director. The email was dated 3/10/25 and titled "Pressurizer Safety Valve Performance Concerns".	04/21/2025
FOIA-2025-000480	Beek, Douglas	AIS Gauging	Under the FOIA, I respectfully request access to records identifying the current and/or most recent list of licensees or	04/23/2025

ENCLOSURE B

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2025-000480 (continued)			registrants that possess beta gauges regulated by the U.S. Nuclear Regulatory Commission. Specifically, I am seeking: (1) a list of NRC license holders or registered entities that own or operate beta gauging devices (e.g., devices containing radioactive sealed sources used for thickness or density measurements) including licensee/company name, mailing address, type and model of the beta gauge (if available), and isotope and activity (if available). I am requesting these records in electronic format (e.g., Excel or PDF) if possible.	
FOIA-2025-000481	FLOR ALBA, GONZALEZ CASALLAS	-	I am requesting all records, reports, documents, and communications pertaining to named individual, related to any investigations, immigration entries/exits, detentions, deportation proceedings, or official correspondence held by the NRC or any related agency under its jurisdiction, from 1990 to the present. This request includes, but is not limited to, internal memoranda, letters, reports, notices of action, and any case files that mention the subject by name, ID number, or other identifiers. If possible, please include any documents shared with other agencies (e.g., DHS, ICE, CBP) or external correspondence referencing the subject. If additional information is needed to locate the records, I am willing to provide it.	04/25/2025

NRC Staff Participated in the Pressurized Water Reactor Owners Group Risk Management Committee Meeting

On April 9, 2025, Office of Nuclear Reactor Regulation (NRR) staff participated in the Pressurized Water Reactor Owners Group Risk Management Committee meeting. The staff delivered presentations to provide a status/update on the following topics: increased enrichment rulemaking, risk-informing digital I&C, the Group for Risk Evaluation and Assessment Tools Review (GREATR), the Generic Risk-Informed Process (expanding the use of the risk-informed process for evaluations), PRA Configuration Control, the Reactor Accident Analysis Modernization initiative, and the Risk-Informed Materials Assessment. These meetings continue to provide positive information exchange opportunities between the U.S. Nuclear Regulatory Commission (NRC) and industry on topics of mutual interest associated with risk-informed decision-making.

NRC Staff Made Public Regulatory Issue Summary 2025-03, "Preparation and Scheduling of Operator Licensing Examinations"

On April 14, 2025, the NRC staff made public Regulatory Issue Summary 2025-03, "Preparation and Scheduling of Operator Licensing Examinations" ([ML24353A178](#)). The purpose of this Regulatory Issue Summary is to inform addressees that the NRC staff needs updated information on projected site-specific operator licensing examination schedules and on the estimated number of applicants planning to take operator licensing examinations.

NRR Staff Hosted a Hybrid Workshop on Licensing and Deployment Considerations for Mobile Microreactors

On April 21, 2025, NRR staff hosted a hybrid workshop on licensing and deployment considerations for mobile microreactors. The goals of this workshop were to 1) understand concepts for mobile microreactor deployment the nuclear industry is considering, and 2) gain insights related to the NRC staff's development of strategies and/or guidance for risk-informed, performance-based licensing and regulation of mobile microreactors. This workshop included several external presentations. This workshop covered one of the high priority topics included in the [Integrated Microreactor Activities Plan](#).
