SUBJECT: INTEGRITY INSPECTIONS, LLC - NRC INSPECTION REPORT 030-39320/2025-001; AND NOTICE OF VIOLATION

Dear Tobias Graham:

This letter refers to the announced inspection performed April 15 - May 16, 2025, remotely from the office. The inspection was an examination of activities conducted under your license as they relate to public health and safety, to confirm compliance with the U.S. Nuclear Regulatory Commission's (NRC's) rules, regulations, and with the conditions of your license. Within these areas, the inspection consisted of a selected examination of procedures and representative records, discussion regarding licensed activities, and interviews with personnel. A final telephonic exit briefing was conducted with you on May 16, 2025.

Based on the results of the inspection, the NRC determined that two Severity Level IV violations of NRC requirements occurred. The violations were evaluated in accordance with the NRC Enforcement Policy which can be found at the NRC's Web site at https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html. The violations involved NRC security requirements and are cited and described in the non-public Notice of Violation (Notice).

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. The guidance in NRC Information Notice 96-28, "Suggested Guidance Relating to Development and Implementation of Corrective Action," may be helpful in preparing your response. You can find the Information Notice on the NRC website at: https://www.nrc.gov/reading-rm/doc-collections/gen-comm/info-notices/1996/in96028.html. Information regarding the reasons for each violation, the corrective actions taken and planned to correct the violations and prevent recurrence, and the date when full compliance will be (was) achieved should be addressed. The NRC review of your response to the Notice will also determine whether further enforcement action is necessary to ensure compliance with regulatory requirements.

The Enclosure contains Sensitive Unclassified Non-Safeguards Information. When separated from the Enclosure, this cover letter is decontrolled.

If Security-Related Information is necessary to provide an acceptable response, please mark your entire response as 'Security-Related Information' in accordance with 10 CFR 2.390(d)(1) and follow the instructions for withholding in 10 CFR 2.390(b)(1). In accordance with 10 CFR 2.390(b)(1)(ii), the NRC is waiving the affidavit requirements for your response.

In addition, as described in the NRC letter dated July 25, 2024, found at the NRC's Agencywide Documents Access and Management System (ADAMS) under accession number ML24207A102, the violation identified in the previous inspection was adequately addressed by the corrective actions taken, and the violation is now considered closed.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from ADAMS, accessible from the NRC website at http://www.nrc.gov/reading-rm/adams.html. However, the material enclosed herewith contains Security-Related Information as described above. Therefore, the material in the enclosure and your response, if applicable, will not be made available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS).

If you have any questions regarding this letter or the enclosed Notice of Violation, please contact Jason Dykert at (817) 200-1427, or the undersigned at (817) 200-1455.

Sincerely,

Lizette Roldán Otero Signed by Roldan-Otero, Lizette on 05/21/25
