---

Dear Colin O'Connor,

Based on our telephone discussion on May 22, 2024, we understand the following:

1. Per the authorized use of item 9.B of your license, you still plan to use unregistered devices for research & development.
2. The Thermo Fisher Trace 1300 Series device in your inventory is a Generally Licensed device and not specifically licensed.
3. The JOE device referenced in your previous inventory is a prototype device that is related to your unregistered device authorization.
4. You would like to keep your current possession limits.
5. You will provide the ECD model numbers for your devices.

Best regards,

Sloan Scott
