Good afternoon Latischa, Karen, and Darren. Good catch. You are correct, the official version of the report that was issued has “two administrators”. If we all agree, rather than go through the process of issuing another version of the report, this appears to be a typo that does not impact the IMPEP Team’s evaluation of the Technical Staffing and Training performance indicator. Our process is not to issue another version of the report before the MRB for minor changes. Therefore if it is in fact minor, I will mark this to be changed in the final version of the report, and we can include in our briefing at the MRB.

Please let me know your thoughts. Advanced thanks for your responses!

Thanks,

R. Lee Smith

This is what I have in the draft copy I have on file. I just checked the copy in NRC's concurrence & it does look like it has "two administrators..." Lee/Robert can we confirm? It should say "***At the time of the review, Louisiana was comprised of 21 staff members. This included an administrator, two managers, three supervisors, one regulatory review specialist, seven fully qualified inspectors, four fully qualified license reviewers...***"

Thanks for the catch Karen!

Latischa

**Subject:** 2025 Louisiana IMPEP DRAFT Hi Report

Ok so I think I am misunderstanding what you are saying and I am sorry if I am being a pain.

Are you telling me this is what you have in your draft or is this what you changed it to?

My draft has : At the time of the review, Louisiana was comprised of 21 staff members. This included two administrators, two managers, three supervisors, one regulatory review specialist, six fully qualified inspectors, five fully qualified license reviewers, one fully qualified SS&D registry.

What you have in your email is correct!

Sorry I think I am reading this different. lol
