10 CFR 26.9

Ladies and Gentlemen:

**DOCKET NUMBER 50-483  
CALLAWAY PLANT UNIT 1  
UNION ELECTRIC CO.  
RENEWED FACILITY OPERATING LICENSE NPF-30  
REQUEST FOR EXEMPTION FROM REQUIREMENTS OF 10 CFR 26.205,  
"FITNESS FOR DUTY PROGRAMS - WORK HOURS"**

Pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 26.9, "Specific exemptions," Union Electric Company (dba Ameren Missouri) is requesting Nuclear Regulatory Commission approval of the enclosed one-time exemption request for Callaway Plant Unit 1 (Callaway) from the specific requirements of 10 CFR 26.205, "Fitness for Duty Programs - Work Hours." The requirements of 10 CFR 26.205(d)(4) permit the use of less restrictive work hour limitations during the first 60 days of a unit outage. The proposed exemption would allow the use of the less restrictive work hour limitations specified in 10 CFR 26.205(d)(4) for an additional 60-day period to support emergent repair activities that have extended the current Refuel 27 outage, as described in Enclosure 1. The period of the proposed exemption would commence on June 25, 2025, and be applicable for a period of 60 days.

The proposed exemption would apply to personnel performing the duties described in Enclosure 1 and as defined in 10 CFR 26.4(a)(4). These personnel are critical for the successful completion of the repair activities emergently identified during the current outage. Details and supporting analysis for the exemption request are provided in Enclosure 1. An environmental assessment supporting the exemption request is provided in Enclosure 2.

Ameren Missouri requests approval of this exemption request by June 25, 2025.

This letter does not contain new commitments.

If there are any questions, please contact Thomas B. Elwood, Manager, Regulatory Affairs at 314-225-1905.

Sincerely,

Travis M. Hart  
Senior Director, Nuclear Operations &  
Plant Manager
