---

Yes, you are correct. There will be 16 plates, with a total of 563 nCi (0.563 uCi). So sorry for the confusion.

Hello Ojeta,

The letter you submitted requests authorization for up to 0.0271 uCi , which from a previous email that you sent appears to be the activity of a single electroplated source. There is also up to a +30% variance for each electroplated source. Can you please confirm that you are requesting authorization for up to 16 of these electroplated sources and that the total activity to be authorized on the license should be 563 nCi (0.563 uCi)? If you need a different number of sources please clarify that in your response.

Please ensure that your response is sent to me directly.

Thank you,  
Laura

Hello Ojeta,

It appears to have been sent to another member of our staff initially and I just received it this morning. I will review and let you know if I have any questions by tomorrow.

Thanks,

Laura
