

JUNE 16, 2025

To: US Nuclear Regulatory Commission

I am writing to request that you change the mailing address for any correspondence to my veterinary hospital, Riverside Cat Hospital. We are licensed to administer radioactive iodine (I131) to feline patients for treatment of hyperthyroidism. U.S. NRC Materials License No. 21-35775-01 and Docket No. 030-39402.

Our mailing address is 2339 Jolly Rd, Okemos, MI 48864, which corresponds to the address listed on our license where we perform the radioactive iodine treatment. 4632 Okemos Rd is our former location and we are no longer located there or receiving mail at that address.

Please feel free to contact me with any questions or for clarification. Thank you for your consideration.

Warm regards,

KERRY LEWIS DVM

RIVERSIDE CAT HOSPITAL OWNER.

Martha Pavon

Subject: [External_Sender] change of mailing address request

Good afternoon-

Please find attached a letter requesting a change to the mailing address for our veterinary hospital. This does not affect the physical address where we provide radioactive iodine treatment to patients.
