SUBJECT: WYOMING DEPARTMENT OF ENVIRONMENTAL QUALITY SOURCE
MATERIAL DRAFT REGULATIONS

Dear Charlee Boger:

The U.S. Nuclear Regulatory Commission (NRC) has reviewed the draft Wyoming Source Material Program Regulations Chapters 1–9 received by our office on June 2, 2025. These proposed regulations were submitted in response to the NRC's comment letter dated April 2, 2025 ([ML25056A044](#)) on Wyoming's draft application for an amendment to Wyoming's Agreement submitted on January 10, 2025 ([ML25055A079](#)). The draft application included the final source material program regulations adopted in late 2024. These regulations were reviewed by comparison to the equivalent NRC rules. We discussed our review of the regulations with you on July 8, 2025.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that the regulations, as adopted, meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

The State Regulation Status (SRS) Data Sheet summarizes our knowledge of the status of other Wyoming regulations, as indicated. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on: <https://www.nrc.gov/agreement-states>.

If you have any questions regarding the review, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact my staff at AgreementStateRegs.Resource@nrc.gov.

Sincerely,

Signed by Giantelli, Adelaide
