U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, DC 20555-0001

Subject: Docket Nos. 50-482 and 72-79: Revision of One Procedure that Implements the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

Commissioners and Staff:

In accordance with 10 CFR 50.54(q)(5) and 10 CFR 72.44(f), WCGS is submitting a change to the emergency plan. Specifically, one procedure that implements the WCGS RERP has been revised. The revised document is identified below:

<u>Procedure</u>	<u>Effective Date</u>
EPP 06-009, Rev. 14	May 28, 2025

The attached summary of the changes to the implementing procedure explains these changes do not reduce the effectiveness of the WCGS RERP.

This letter contains no commitments. If you have any questions concerning this matter, please contact me at (620) 364-4204.

Sincerely,

A handwritten signature in black ink, appearing to read "Dustin T. Hamman", written in a cursive style.

Summary of Changes to One Procedure that Implements the Radiological Emergency Response Plan (RERP) for Wolf Creek Generating Station (WCGS)

1. Procedure EPP 06-009, "Drill and Exercise Requirements," Rev. 14

Procedure EPP 06-009 has been revised. The procedure has been changed in response to the Institute of Nuclear Power Operations (INPO)/World Association of Nuclear Operators (WANO) Emergency Management Performance Evaluation (EMPE) observation that was documented in the station's Corrective Action Program under Condition Report (CR) 10040580. The observation noted that drill objectives are specified in EPP 06-009, but the drill objectives for the 8-year cycle were not referenced with a direct connection to the periodicity requirements.

The changes provide enhanced guidance for emergency planning staff who implement and track the drill objectives within the regulatory periodicity requirements. This change restructures and reorganizes Section 7.1, "Drill and Exercise Programs," to provide enhanced guidance to ensure required drill objectives are linked to their associated periodicity requirements. The restructure and reorganization of the steps provides better structure and flow.

These changes do not reduce the effectiveness of the Wolf Creek Radiological Emergency Response Plan.
