Hello,

New Jersey would like to provide updated information on the Event Notification Report dated 12/13/2024 (57455).

The missing Ge-68 pin source was found by the common carrier, repackaged and returned to the supplier (Sanders Medical in Knoxville, TN). The source was located and shipped on December 10, 2024.

The Department is in possession of evidence of receipt by the supplier.

This should close the incident.

Jack Tway
