

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

July 7, 2025

Mr. Toby Neugebauer
Chief Executive Officer
Fermi America
3401 Armstrong Avenue
Dallas, TX 75205

SUBJECT: FERMI AMERICA - ACKNOWLEDGEMENT OF PART ONE OF THE COMBINED
LICENSE APPLICATION FOR THE PRESIDENT DONALD J. TRUMP
ADVANCED ENERGY AND INTELLIGENCE CAMPUS, UNITS 1 THROUGH 4

Dear Mr. Neugebauer:

This letter confirms that the U.S. Nuclear Regulatory Commission (NRC) has received initial submittal of a combined license application (COLA) from Fermi America for the development of a four-unit Westinghouse AP1000 nuclear power plant in Carson County, Texas, as part of a hybrid energy and data infrastructure project known as the President Donald J. Trump Advanced Energy and Intelligence Campus, or Project Matador. The submittal, dated June 17, 2025, can be found in the Agencywide Documents Access and Management System (ADAMS) under Accession No. ML25169A395.

The application has been assigned Project Number 999-2146. Please reference this project number in all future correspondence regarding this application.

As requested in your cover letter dated June 17, 2025, the NRC is prepared to engage on the submittal to enable development of the supplemental information needed for the successful completion of the COLA. Once we have received the complete, high quality application, the NRC will complete its licensing review within the 18-month timeframe specified in Executive Order 14300, "Ordering the Reform of the Nuclear Regulatory Commission."

If you have any questions about this letter or the review process, please contact Billy Gleaves at Bill.Gleaves@nrc.gov or at (301) 415-5848; and Allen Fetter at Allen.Fetter@nrc.gov or at (301) 415-8556

Sincerely,

A handwritten signature in black ink, appearing to read "Michele Sampson", is located below the "Sincerely," text.

Signed by Sampson, Michele
on 07/07/25

Michele Sampson, Director
Division of New Reactor Licensing
Office of Nuclear Reactor Regulation
