SUBJECT: AM ACQUISITION I, LLC D/B/A HOSPITAL ESPANOL AUXILIO MUTUO SAN PABLO, LICENSE AMENDMENT, MAIL CONTROL NO. 646962

Dear Carlos I. Rodriguez Ortiz:

This refers to your license amendment request dated May 6, 2025. Please find enclosed Amendment No. 24 removing Reinaldo Laguna-Figueroa, M.D. as an authorized user on your license. Please be aware that the removal of this user has led to a modification in your license authorized uses under 10 CFR 35.300. The authorization has changed from all uses permitted under 10 CFR 35.300 to the limited use of oral administration of sodium iodide iodine-131 under 10 CFR 35.300. Please also note some changes in the way your authorized use and user are listed. We have added '10 CFR 35.300' in front of (limited to oral administration of sodium iodide iodine-131) to match the current verbiage used on our licenses. This change is purely cosmetic and does not affect your authorization. Additionally, Condition 9.C. has been updated to specify that I-131 use permitted by 10 CFR 35.300 is limited to outpatient settings only, as per the provisions of 10 CFR 35.75. If you wish to include inpatient use in the future or remove authorization for 10 CFR 35.300 entirely, please submit an amendment request.

An environmental assessment for this action was not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please contact me at 610-337-5283 or via electronic mail at hiba.ahmed@nrc.gov so that appropriate corrections or answers can be provided.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action(s) against you. This could include issuance of a Notice of Violation, or Imposition of a Civil Penalty, or an Order Suspending, Modifying or Revoking Your License as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available at:
<http://www.nrc.gov/reading-rm/doc-collections/enforcement/>.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding medical uses of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/med-use-toolkit.html>. This site also provides the updated Training and Experience NRC Form 313A series of forms and

guidance, as well as information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web Site at: <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Hiba Ahmed, Health Physicist
