RE: Application for NRC Export License

Dear Ms. Attack:

Enclosed is an NRC Form 7 requesting an NRC export license to be issued to Schlumberger Technology Corporation (STC). This application replaces all previous submissions in its entirety.

This license authorizes the export of certain byproduct materials contained in sealed sources and associated equipment to affiliated companies in Cameroon, Republic of the Congo (Brazzaville), and the Democratic Republic of the Congo (Kinshasa) listed in our application.

This license authorizes the export of certain byproduct materials contained in sealed sources and associated equipment to affiliated companies listed in our application.

The request includes:

- NRC Form 7 Application
- Attachment 1: Intermediate Consignees
- Attachment 2: Ultimate Consignees
- Attachment 3: Description of Radioactive Materials

Nuclear Sources and Services, Inc. will package the radioactive materials for export, but Schlumberger Technology Corporation will remain the United States Principal Party in Interest (USPPI).

The ultimate consignees will use these byproduct materials in connection with oilfield service activities conducted in the countries listed on the application (e.g. well logging and hydraulic fracturing).

If you have any questions regarding this application or require any additional information, you may contact me at 281-285-8775 or lwilcox@slb.com.

Sincerely,
