---

Hello Mr. Bryant,  
Yes, this is the certificate.  
I checked and I did send it in, but to the wrong reviewer, so they probably wondered what it was for and put it off the side.

Good afternoon, Ms. Smith,

I am following up to see has Dr. Parikh received his certificate yet?

Thank you,

Nathan Bryant

Good afternoon, Ms. Smith,

As mentioned, the Certification Board of Nuclear Cardiology (CBNC) certification is recognized by the NRC as an approved certification under Title 10 of the *Code of Federal Regulations* (CFR) 35. 290, however, a board certificate in the specialty of "Nuclear Cardiology" from the CBNC must display the wording "for Physicians trained in the United

States” and be provided to us for review. Reaching out to certification board may be an option to help obtain additional information on steps to provide the original certificate. You may also submit necessary information under a different pathway as detailed in [NRC Form 313A \(AUD\)](#) “ Authorized User Training, Experience, and Preceptor Attestation (for uses defined under 35.100, 35.200, and 35.500)” as well.

Mr Bryant, in regards to this, not the message i just left you which was on Dr gottams location, this subject, I spike with Dr parish and he told me he never received a certificate only that document. Any suggestions? Perhaps they stopped sending certificates out?

Thank you,  
Laura Smith

Good morning, Ms. Smith,

The document you have provided is a verification for the proposed AU; however, the official certificate we accept is going to resemble the attached document and have the necessary wording. This is what the Medical Uses Licensees Toolkit refers to in

accordance with Title 10 of the *Code of Federal Regulations* (CFR) 35.290 for the Certification Board of Nuclear Cardiology (CBNC) that we need to proceed with this pathway for approval.

Hi Nathan,  
Here you go. I think this is what you were looking for.

I was out of town, sorry for the late response.

Good evening, Ms. Smith,

This email is in response to the letter dated December 21, 2024, to amend Nuclear Regulatory Commission (NRC) Materials License No. 21-32228-02, Control No. 644870, to remove and add an Authorized User.

Upon review of your request, the following area was identified that requires additional or clarifying information:

1. Please provide the certificate of the board certification for proposed Authorized User.

The [Medical Uses Licensee Toolkit](#), provides an example of the certificate that we accept in accordance with Title 10 of the *Code of Federal Regulations* (CFR) 35.290 for the Certification Board of Nuclear Cardiology (CBNC).

Please submit your response by March 10, 2025. As you will not receive a hardcopy of this request for additional information, please confirm that you have received this email.
