Good afternoon, Paula:

We are in the process of posting your notification of the change of control to NRC's website, and reviewing the request for consent. In the request, it appears that there is a name change associated with the request.

Could you please clarify whether the transaction has been completed. If so, could you please indicate the date of that completed transfer via a signed and dated letter, and attach documentation demonstrating the completed transaction? For quickest processing, please submit such information as a pdf file, attached to an email message. If the transaction has not taken place, could you please indicate the date on which you anticipate the change of control to occur?

In addition, could you please confirm that there is no change in the Radiation Safety Officer or Authorized Users to be listed on the license?

Thank you!

*Sara*

Jason,

Good morning. Can you please investigate the request I put in for transfer of control? I initiated the request on 11/25/24 to change our business name from Ascension Genesys Ambulatory Imaging to Henry Ford Health System. The request was sent overnight via Fed-Ex Tues. December 5<sup>th</sup> to 2056 Westings Ave. Naperville IL.

I would appreciate if you can provide me with an update.

Thank you for all your help over the last several months.
