

NONSUBSTANTIVE CHANGE REQUEST
FOR
FORM 313, "APPLICATION FOR MATERIALS LICENSE"
OMB NO. 3150-0120

For a person to be licensed to possess, use, or distribute licensed material, the person must submit an application that will permit the U.S. Nuclear Regulatory Commission (NRC) to determine whether the applicant has training, experience, equipment, facilities, and procedures for the use of radioactive material that are adequate to protect the public health and safety, as applicable. NRC Form 313, "Application for Materials License," is used to provide the information required.

The NRC is requesting a nonsubstantive change to NRC Form 313 to introduce an online version. This version will replicate the existing form content and fields while providing a more user-friendly format for secure electronic submission.

In addition, the changes to the PDF form include minor updates (updated physical address, email address or web-based portal address, electronic payment method through pay.gov, added spacing, removal of the "for NRC Use Only" section). Finally, the online version will contain enhanced instructions (tool tip button to show example of completed fields) to assist applicants in accurately completing the form.

These changes are not expected to increase the burden for applicants, and directly support NRC efforts to increase efficiency, timeliness and predictability in reviews of materials licenses.

[12] License Fees

License fees are required only for new applications. However, certain amendments or renewals that expand the scope of an existing license--resulting in a new or higher fee category--will also require a fee. An NRC license reviewer will determine the correct fee amount after receiving your application.

Per the Debt Collection Improvement Act of 1996 (Public Law 104-134), you are required to provide your Taxpayer Identification Number (TIN). **This requirement applies to new license application only.** Complete [NRC FORM 531](#) -- "Request for Taxpayer Identification Number" and upload it to the Attachments tab. You do not need to sign the form, as it will be included in the Generated Application Package, which you will digitally sign.
