**SUBJECT: LETTER NOMINATING NUCLEAR REGULATORY COMMISSION STAFF TO
THE AMERICAN NUCLEAR SOCIETY STANDARD SUBCOMMITTEE ON
OPERATION OF RESEARCH REACTORS (PREVIOUSLY ANS-15)**

Dear Dr. Gale Hauck,

I would like to nominate Jeffrey Rady as an authorized U.S. Nuclear Regulatory Commission (NRC) representative to the American Nuclear Society (ANS) Standard Subcommittee on "Research and Test Reactors (Previously ANS-15)." Mr. Rady is the Chief of the Non-Power Production and Utilization Facility Licensing Branch in the NRC's Office of Nuclear Regulator Regulation and has approximately 20 years of nuclear experience including approximately 17 years at the NRC. Mr. Rady brings the necessary expertise and experience to support the development of these standards.

In accordance with the Office of Management and Budget Circular No. A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," dated January 27, 2016, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating in consensus standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

However, the NRC's endorsement of these standards, if desired by the NRC, would be part of a separate activity such as incorporation by reference into rulemaking or endorsement in an NRC regulatory guide.

Correspondence to the nominated individuals should be addressed to:
