Subject: RE: Gateway National Recreation Area Spring Creek Park Site and Dead Horse Bay Site - Final Remedial Investigation Sampling and Analysis Plans & Response to NRC Comments

Folks,

The NRC knows that NPS was not expecting a response from the NRC; however, the NRC wanted to inform NPS that the NRC has no comments on these NPS documents.

Thanks,
Harry

Subject: [External_Sender] Gateway National Recreation Area Spring Creek Park Site and Dead Horse Bay Site - Final Remedial Investigation Sampling and Analysis Plans & Response to NRC Comments

Harry,

I've replaced Jeff Johnson as the National Park Service (NPS) Contaminated Project Manager for the Great Kills Park Site, the Spring Creek Park Site, and the Dead Horse Bay Site at the Gateway National Recreational Area.

Please find the Response to NRC Comments on the Draft Final Remedial Investigation (RI) Sampling and Analysis Plans (SAPs) at the Spring Creek Park and Dead Horse Bay Sites attached as well as a link to the final versions of the Final SAPs for both Sites.

I look forward to working with you and the rest of your staff on these projects going forward. Please let me know if you're interested in scheduling a meeting for introductions and current project status. Regardless, I'll also let you know once we have finalized field schedules for the planned RIs at both Sites.

Thanks!
Jenny
