**PART I.D -- COMMENTS**

Upon our receipt of your request on November 7, 2024, we tasked the Office of Nuclear Reactor Regulation (NRR) and Region I (RI) to search for the requested record. Neither office was able to locate the requested record. As you noted in your incoming request, the Public Document Room (PDR) staff were unable to locate the requested record. Our office conducted a search of both the Main and Legacy Libraries within the U.S. Nuclear Regulatory Commission's official record repository, Agencywide Documents Access and Management System (ADAMS) and did not locate a copy of the record there. During our search of ADAMS, we came across documentation that indicates that a copy of this record, which had been part of nuclear power plant docket files maintained in the offices of the Advisory Committee on Reactor Safety, had been transferred to the National Archives and Records Administration (NARA) in 2007 for permanent retention. Should you wish to pursue your interest in this record, you may submit a request to NARA; please refer to this link for how to do so: <https://www.archives.gov/foia>.

This completes our processing of your request.
