---

I am seeking access to records under the Freedom of Information Act.

The document that I would like to see is identified in a letter dated December 20, 1978 from ComEd to NRC regarding "Carroll County Station Units 1 and 2, Request for Early Site Review and Application for Construction Permits." (Copy attached.) One of the two enclosures to this 1978 letter is missing from the publicly available ADAMS files. The NRC Public document Room has so far been unable to locate this document for me. A broader search is necessary.

The enclosure which needs to be located is titled "Carroll County Station - Site Suitability - Site Safety Report." The companion enclosure, "Carroll County Station – Site Suitability - Environmental Report" Is readily available in ADAMS. I am seeking only the Site Safety Report.

I am willing to pay the applicable fees, if any, associated with processing this FOIA request. Please let me know in advance if the fees will exceed \$100.

Thank you.

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Subject: Carroll County Station Units 1 and 2  
Request for Early Site Review and  
Application for Construction Permits

Dear Mr. Denton:

Pursuant to 10 CFR 2.101(a-1), Commonwealth Edison Company hereby tenders an application for construction permits for Carroll County Station Units 1 and 2 and also requests that the Nuclear Regulatory Commission (NRC) conduct an early review and hearing and render an early partial decision on issues of site suitability.

Also pursuant to 10 CFR 2.101(a-1)(1), included herein as Attachment 1, is the information required by 10 CFR 50.33(a-e) and by 10 CFR 50.37.

The necessary site information and design assumptions are contained in the enclosed two self-sufficient and separate reports titled: "Carroll County Station - Site Suitability - Site Safety Report" and "Carroll County Station - Site Suitability - Environmental Report." Both of these reports contain copies of this letter of application with an additional attachment, Attachment 2, entitled "Proposed Findings on the Issues of Site Suitability on which Commonwealth Edison Company is Requesting Review." Pursuant to 10 CFR 50.30(c)(3), fifteen (15) copies of the Carroll County Station - Site Suitability - Site Safety Report and twenty (20) copies of Carroll County Station - Site Suitability - Environmental Report are submitted for your use.

Upon receipt of notification of the acceptability of our submittal and assignment of a docket number, the procedures in 10 CFR 2.101(a)(3) and (a)(4) relating to formal docketing and the submission and distribution of additional copies of the application will be followed.
