Dang,

I have one clarifying question- this request only applies to Vogtle, units 1 & 2 correct?

Thanks,

Dear Mirabelle and Genevieve,

I would like to confirm that the justification for an extension is correct. We have the report ready. But I just need a few days to complete our documentation process before it can be submitted.

Sincerely,

Dang Ho

Subject: RE: RE: XII Annual Report date
Importance: High

Thank you for requesting the extension ahead of the due date, July 31. I see you have indicated that compliance with the reporting regulation can be met by August 8, 2025. I understand that the issue is related to new presence of E2 material and necessary updates to software applications to adjust reporting, there is a delay in being able to verify accuracy of the material reports by their due date on July 31, 2025. Please confirm if this justification is correct, or provide additional information. Upon confirmation I will recommend the extension to our respective licensing and oversight staff to receive approval for the extension.

Thanks,

Subject: [EXTERNAL] XIJ Annual Report date

Good morning Genevieve,

Would it be acceptable for me to have another week extension after 07/31/25 to submit the annual for XIJ. I never had any issue sending in the report on time.

Due to the current situation with the E2 material and capability of our reporting software, I couldn't complete our record on time.

Would you please let me know whether it's acceptable to send in the annual report for XIJ by 08/08/25.

Sincerely,

Dang Ho
