Title: Public Meeting on Executive Order 14300 Section 5(a) - The regulations should not provide for tolling of fixed deadlines except in instances of applicant failure

Date(s) and Time(s): August 07, 2025, 01:00 PM to 03:00 PM ET

Location: NRC One White Flint North, 13B02
11555 Rockville Pike
Rockville, MD

Category: This is a Comment-Gathering Meeting. The purpose of this meeting is for NRC staff to meet directly with individuals to receive comments from participants on specific NRC decisions and actions to ensure that NRC staff understands their views and concerns.

Purpose: Executive Order (EO) 14300 Section 5(a) directs the NRC to establish fixed deadlines for its evaluation and approval of licenses, license amendments, license renewals, certificates of compliance, power uprates, license transfers, and any other activity requested by a licensee or potential licensee, as directed under the Nuclear Energy Innovation and Modernization Act, rather than the nonbinding "generic milestone schedules" guidelines the NRC has already adopted. The regulations should not provide for for tolling those deadlines except in instances of applicant failure, and must allow a reasonable diligent applicant to navigate the licensing process successfully in the time allotted.

The NRC is holding this public meeting to obtain stakeholder perspectives to support near-term development of recommendations, that may include changes to our guidance and regulations.
