Re: Additional Files, Application Supplement to the License Application for a Performance-Based, Multi-Site Radioactive Materials License to Operate a High-Pressure Slurry Ablation Remediation System, Revision 3, DISA Technologies, Inc., Docket No. 40-38417

Dear Mr. White:

As stated in our letter dated July 31, 2025, DISA Technologies, Inc. (DISA) would be completing revisions to its standard operating procedures (SOPs) and a quality assurance project plan (QAPP). DISA has completed its revisions and is attaching the SOPs and QAPP along with RESRAD and MILDOS modeling output files to this letter. Modeling files were discussed at various times during the audit period of July 11 through July 29, 2025.

DISA appreciates the staff's continued efforts in completing this review. If you have any questions, please contact me.

Sincerely,

Stephen J. Cohen, CRAO
